TURBO Remote Control

The Robotic Pool Cleaner with High Performance Features and Economical Remote Control

- Easy to Operate - Plug It In and Press A Button
- Cuts Maintenance Costs up to 50%!
- No Installation or Assembly Required
- Built-In Filtration System - Completely Independent of the Main Pool Filter - *No Messy Hoses to Deal With!*
- Removes Algae, Bacteria, Sand, Leaves, Twigs and more
- Cleans Any Size, Shape and Type of Pool
- Climbs 90° to Clean the Waterline and Pool Walls
- Pre-Programmed for Efficient, Thorough Cleaning of Your Pool
- Single Direction Wireless Remote Guidance puts you in control when and where you want
- Vacuums Up All Types of Debris (large leaves to sand)
- Lightweight - Operates on Only 24 Volts (approx. 2¢ per hour)
- Reusable Microfilter Bag with Largest Debris Capacity
- Walks up and Scrubs Most Pool Steps and Benches

Aquabot Turbo SOLO's built-in microcomputer directs it to *Scrub, Vacuum and Filter* dirt and debris from pool bottoms, walls, waterlines and steps - *Automatically!* Aquabot Turbo SOLO's single direction wireless remote gives you the ability to direct it for pinpoint cleaning or let it automatically clean any size, shape and type of residential swimming pool.

The lightweight Aquabot Turbo SOLO has its own special filtration pump and bag located inside its body operating completely independent of your main pool filter. This eliminates the need for messy hoses or "costly to operate" booster pumps.

Engineered for reliable, worry free operation, Aquabot Turbo SOLO cannot become stuck on stairs or ladders or become tangled in hoses as with other pool cleaners. Just take your Aquabot out of the box, put it in your pool and press a button - *No Installation Is Required.*

Cut Your Summer Pool Bills In Half! Aquabot Turbo SOLO reduces the frequency of wasteful backwashing as much as 80%, saving thousands of gallons of water per year and decreases your chemical consumption by as much as 30%. With Aquabot Turbo SOLO at work in your pool you can even lessen the running time of your pool's filtration system by as much as 60%.
